

## Campus Issue 20-21-04: Pay Print Systems Upgrade

<b>Committee or Individual:</b>	Student Senate
<b>Email:</b>	<a href="mailto:w1785211@apps.losrios.edu">w1785211@apps.losrios.edu</a>
<b>Issue/Concern:</b>	Pay Print Systems Upgrade
<b>Describe the issue/concern::</b>	Currently, pay print systems in the Learning Resource Center accept only cash or student access cards onto which cash has been loaded. This prevents students without cash on hand from being able to use the pay print systems.
<b>What do you recommend or suggest solving this issue/concern? :</b>	As the use of credit cards and alternative methods of payment increases, especially among students, we recommend upgrading the pay print systems to accept credit card use in addition to cash or installing a unit that allows students to use credit cards to load money onto their students access cards.
<b>How will this recommendation support the success of SCC students and benefit the campus community?:</b>	Upgrading the pay print systems to accept credit card use in addition to cash, or installing a unit that allows students to use credit cards to load money onto their student access cards will make the Learning Resource Center more inclusive to those students that do not use cash or carry cash on hand, and will create more consistency across campus as other parts of the campus such as the College Store and City Cafe accept credit card use.
