

**President's Response  
Campus Issue 18-19-01**

**Committee or Individual:** Karen Chewning

**December 5, 2017**

**Issue/Concern:** Approval of "Art Installation Parameters"

**Summary of Issue:**

In 2015, following discussion at the Executive Council, the College President directed that an art work not be installed as requested by CI 14-15-02. Following that the Campus Development Committee developed and requested the approval of "Art Installation Parameters" for the college. The CDC is requesting approval of those parameters.

**Action Taken:**

The CI was forwarded to the EC for discussion. The Executive Committee discussed the CI in Spring 2018 and again in early Fall 2018.

The EC agreed on November 5, 2018 to work with the Art Department to develop a college process for art installations at SCC.

**President's Response to Executive Council**

I have heard the discussion on Issue # 18-19-01

To follow-up on this campus issue the following actions are directed: The Executive Council will work with the Art Department, and other areas as needed, to develop a college process for the installation of art works on campus.
