Headcount Enrollment Data

#	Question	Answer
6.	Total unduplicated headcount enrollment for last three years:	2018-19: 30,341 2019-20: 30,433 2020-21: 30,299
6a.	Percent Change 2018-19 to 2019-20: (calculated) Percent Change 2019-20 to 2020-21: (calculated)	0% 0%

6. Additional Instructions and Data Definitions:

For the purposes of this report, unduplicated headcount is defined as the total number of students (credit and non-credit) enrolled at the end of the general enrollment period (also referred to as first census date). The academic year should include leading summer, fall, winter, and spring terms. If your institution calculates the academic year differently for the purposes of monitoring annual enrollment, you may respond using your local calculation and describe your method in Question 20.

7.	Total unduplicated headcount enrollment in degree applicable credit courses for last three years:	2018-19: 30,341 2019-20: 30,433 2020-21: 30,299
7a.	Please list any individual degree applicable credit program which has experienced a 50% increase or decrease in the last year. N/A	

7. Additional Instructions and Data Definitions:

Per federal regulations, ACCJC is responsible for monitoring for significant program growth (or decline) that may potentially impact an institution's ability to meet Accreditation Standards. ACCJC does not determine what constitutes a program for colleges. For the purposes of this report, you may define degree-applicable credit programs as appropriate for the context of your institution's unique mission.

Distance Education and Correspondence Education

#	Question	Answer						
8.	Do you offer Distance Education?	Yes						
8a.	Total unduplicated headcount enrollment in distance education in last three years:	<table border="1"> <tr> <td>2018-19</td> <td>12,771</td> </tr> <tr> <td>2019-20</td> <td>13,263</td> </tr> <tr> <td>2020-21</td> <td>27,371</td> </tr> </table>	2018-19	12,771	2019-20	13,263	2020-21	27,371
2018-19	12,771							
2019-20	13,263							
2020-21	27,371							
8b.	Percent Change 2018-19 to 2019-20: (calculated) Percent Change 2019-20 to 2020-21: (calculated)	4% 106%						
8c.	<p>If your institution experienced more than a one-year increase (or decrease) of 50%, please explain:</p> <p>Due to the COVID-19 pandemic, after March 13, 2020, all courses were either suspended or moved to the distance education modality. In Fall 2020, most courses were offered via distance education under the state chancellor's office emergency regulations, unless they were impossible to convert to that modality. In Spring 2021, the majority of our courses continued to be offered via distance education.</p>							

8. Additional Instructions and Data Definitions:

Distance education is defined as education that uses technology to deliver instruction to students who are separated from the instructor(s) and to support regular and substantive interaction between the students and the instructor, either synchronously or asynchronously. For the purposes of this report, include only those courses that are 100% online in your calculation of unduplicated headcount enrollment for distance education. Do not include hybrid courses or courses in which all the class hours are face to face, but some material is posted online.

8a. IMPORTANT NOTE REGARDING DATA FROM SPRING 2020: When calculating total DE enrollment for 2019-20, please include 100% online courses from summer 2019, fall 2019, and winter 2020. For Spring 2020, please include only courses that were originally scheduled as 100% online. Omit any courses that shifted to a distance modality due solely to the COVID-19 pandemic.

9.	Do you offer Correspondence Education?	No
----	--	-----------

9. Additional Instructions and Data Definitions:

Correspondence education is defined as education in which (1) the institution provides instructional materials (and examinations on these materials), by mail or electronic transmission (including transmission via learning management system) to students who are separated from the instructor; and where (2) interaction between the instructor(s) and the student is limited, is not regular and substantive, and is primarily initiated by the student. Online courses or online portions of courses which primarily involve paperwork (e.g., reading textbook and other materials posted by the instructor, taking examinations, and submitting assignments) will fall within the definition of correspondence education rather than distance education. If the online portion of a class meets the definition of correspondence education, then even if the class also meets on site, it will be considered a correspondence education course for Title IV qualification purposes. Correspondence education is not considered distance education within the U.S. Department of Education definition (see question 8, above).

19. Additional Instructions and Data Definitions:For the purposes of the Annual Report, Job Placement Rate is defined as the percentage of students who are employed in the year following completion of a CTE (career-technical education) certificate or degree program. (This means that the denominator for the 2020-21 job placement rate will be the number of students who completed the program in 2019-20.) Report only those programs with a minimum of 10 students in the completion year. For example, if a program had 9 students complete in 2019-20, you do not need to report a job placement rate for 2020-21. Report only those programs for which reliable data are available. If your institution has defined its job placement rate differently than what is described above, you may complete this question using your local definition provided that you describe this definition in Question 20.

For 18, items marked with "N/A" reflect disciplines where courses were not offered or exams were not administered due to COVID-19.

For 19, items marked with "N/A" reflect an N<10. Data were obtained from the CA Perkins Core Indicators. See link below. Because this dataset does not include self-employed individuals, we have set our goals for the Perkins metrics somewhat lower for disciplines in which self-employment is common than for other disciplines.
